

Tuesday - 28 June 1949

STATINTL

1. Handed to Sen. Humphrey (D., Minn.) a letter from the Director regarding our termination from employment of Mr. [redacted] I discussed this case with Sen. Humphrey, who apologized for taking the Director's time in this matter.

STATINTL

2. Discussed with Mr. Arens, Senate sub-committee on Immigration, the status of [redacted] immigration case, and informed him that we would have further information at a later date. He discussed with me the possibility of securing from the Director a general statement regarding certain aliens attached to foreign diplomatic missions and international organizations embodied in his draft of 28 June 1949.

3. Gen. Mudge, Senate Armed Services Committee, informed me that Senator Tydings has written Senator Flanders stating that the National Security Council is not engaged in psychological warfare, that it falls within the province of CIA, and that it is an extremely sensitive subject which Senator Flanders should take up with the Admiral if he desires to pursue it further.
